

Customer Retention

E-retail factors for customer activation and retention: A case study from Indian e-commerce customers

Customer satisfaction has emerged as one of the most important factors that guarantee the success of online store; it has been posited as a key stimulant of purchase, repurchase intentions and customer loyalty. A comprehensive review of the literature, theories and models have been carried out to propose the models for customer activation and customer retention. Five major factors that contributed to the success of an e-commerce store have been identified as: service quality, system quality, information quality, trust and net benefit. The research furthermore investigated the factors that influence the online customers repeat purchase intention. The combination of both utilitarian value and hedonistic values are needed to affect the repeat purchase intention (loyalty) positively. The data is collected from the Indian online shoppers. Results indicate the e-retail success factors, which are very much critical for customer satisfaction.

Customer Recommendation

A customer only recommends a site to visit when he/she get satisfaction from site User Interface, Best content, Fastness etc and shows engagement towards site i.e Retention.

**We have observe a dataset
about customer
recommendation towards
site i.e Retention.**

Let's starts with Dataset

Checking observations columns and Null values of the dataset.

- 1 Gender of respondent
 - 2 How old are you?
 - 3 Which city do you shop online from?
 - 4 What is the Pin Code of where you shop online from?
 - 5 Since How Long You are Shopping Online ?
 - 6 How many times you have made an online purchase in the past 1 year?
 - 7 How do you access the internet while shopping on-line?
 - 8 Which device do you use to access the online shopping?
 - 9 What is the screen size of your mobile device? []
 - 10 What is the operating system (OS) of your device? []
 - 11 What browser do you run on your device to access the website? []
 - 12 Which channel did you follow to arrive at your favorite online store for the first time?
 - 13 After first visit, how do you reach the online retail store? []
 - 14 How much time do you explore the e- retail store before making a purchase decision?
 - 15 What is your preferred payment Option? []
 - do you abandon (selecting an items and leaving without making payment) your shopping cart? []
 - 16 and the "Bag", "Shopping Cart"? []
 - 17
 - 18 The content on the website must be easy to read and understand
 - 19 Information on similar product to the one highlighted is important for product comparison
 - 20 Complete information on listed seller and product being offered is important for purchase decision.
 - 21 All relevant information on listed products must be stated clearly
